

Director, Integrated Quality Management, South Zone – Alberta Health Services**Requisition #:** 443873**City:** Lethbridge or Medicine Hat, Alberta.

Alberta Health Services (AHS) – South Zone is seeking a Director of Integrated Quality Management who lives the values of AHS and is ready to lead the planning and coordination of a sustainable and integrated quality health system for the South Zone.

The South Zone is a diverse and growing zone. Recently there have been major capital renovations and additions at the two main hospitals - Medicine Hat Regional Hospital and the Chinook Regional Hospital in Lethbridge. The lower cost of living, coupled with the high quality of life available in the South Zone makes it the perfect place to call home. The work-life balance provided in Southern Alberta along with all the sunshine filled days, only emphasize this exciting and challenging opportunity.

Are you ready to be a champion for Quality, Patient Safety, Patient Relations and Patient & Family Centered Care? Our ideal candidate will be able to develop and maintain strong relationships with key stakeholders and leaders. They will be able to lead an operational team who spans across the South Zone and will work collaboratively to oversee all related programs including Quality Improvement, Zone Accreditation and Medication Reconciliation.

Qualifications:

The qualifications we are looking for are:

- A degree in a healthcare profession or health care management
- A master's degree (preferred)
- 5 years or more experience in a management role related to health care
- The proven ability to be a strategic thinker with a demonstrated application of business planning and project management
